## Form-Filler Software

### Form Pilot™

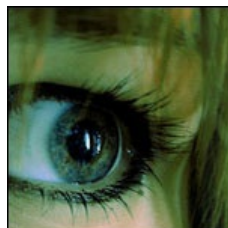

- is a line of form filler software. Fill out any kinds of forms on your computer instead of using a typewriter. You can use our form-filler for preprinted or blank paper forms, for filling out electronic forms of any type (DOC, TXT, XLS, PDF, etc.).

More details:

## Digital Photo Correction

### Beauty Pilot™

- bring out the beauty in women's portraits taken with a digital camera! Only a gentle touch is required to erase a skin imperfection in a photo.

### Retouch Pilot™

- enhance background outdoor scenes in your photos by removing unnecessary objects. Retouch any technical imperfections in your photos and restore old scanned photos.

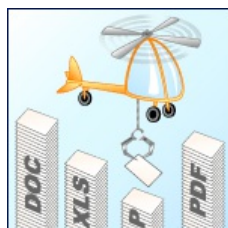

### Perspective Pilot™

- allows you to correct perspective on urban landscape photos. The program automatically crops the external edges arising after photo correction.
